Continuation of Substance of Interview including description of the general nature of what was discussed: It was suggested that claims 2 and 25 be cancelled since they did not further limit the invention in that claims 1 and 24 already set out an indication of abuse to the abuser. The phrase "upon administration of abuse to abuser" will also be added to claim 1. The phrase "to impart an indication of abuse to an abuser" will be added to claims 6 and 20. Claim dependence of claims 17-19 will be changed to claim 1, and the claims will be amended to particularly point out that administration in these claims refer to that of the tampered dosage form. These changes will be done by Examiner's amendment..
